

MANUFACTURERS OF WELLNESS

 VitaeNaturals
MANUFACTURERS OF WELLNESS

MANUFACTURERS OF WELLNESS

Since its foundation in 2001, Vitae Naturals has become the first European producer of certified non-GMO IP naturally-sourced Vitamin E and one of the world's leading manufacturers of phytosterol esters.

Our functional ingredients are sold in more than 40 countries and to different sectors: food and nutrition, pharmaceuticals, cosmetics and animal feed.

Located in Talavera de la Reina (Central Spain), we are proud to have an efficient and dynamic worldwide network.

INNOVATION AND RESEARCH

Using state of the art technology and equipment, we are able to maximize the development of our three main targets in this area:

- To **satisfy our customers**, with the development of products that adapt and meet their dynamic needs.
- Through **continued investigation**, to continually update our products to the newest trends of the market.
- We are **constantly developing** our practice technologically, to optimize the productive process, meet top quality standards and production costs.

PRODUCTS

Vitae Naturals offers natural and effective ingredients to satisfy new consumers demand for health and wellness with natural and certified ingredients. Our leaders and bestselling category are tocopherols (**Vitapherole®**) naturally sourced Vitamin E available in different forms and used as a powerful antioxidant, and phytosterols and phytosterols esters (**Vitasterol® S-80**), powerful cholesterol reducer with high level of scientific evidence and an approved health claim.

Other recognized and premium natural ingredients are our Antioxidant systems (**Vitapherole AOX®**), synergistic blends of tocopherols and other natural antioxidants, maximizing effectiveness in oxidation prevention.

Vitae Naturals functional and natural sourced ingredients help manufacturers develop successful products, while at the same time, helping consumers to enjoy and develop healthy life habits.

PURITY OF INGREDIENTS, AND TOP QUALITY PRODUCTS

We work with the finest suppliers worldwide to provide innovative, top quality products made of the purest raw materials available.

PRODUCTS DEVELOPED IN COLLABORATION WITH THE CLIENT

We remain innovative in the field of natural and healthy ingredients, and in many cases, work directly with our customers to create tailor-made formulations where there is a need in the marketplace.

We partner with our clients to assure that we provide them with cutting edge ingredients, good value and flexibility so that they may best serve their market.

We work together with our customers to help them be the best in their sector.

TAILORED NATURAL SOLUTIONS

From Pharmaceutical, Food and Beverages to Cosmetics and Feed Additives, we provide tailor-made natural solutions for our customers. In this way our clients can easily integrate our ingredients in their manufacturing process.

RESEARCH, INNOVATION AND TRACEABILITY

Vitae Naturals's state-of-the-art manufacturing facility meets the requirements of quality standards FSSC 22000 (GFSI). With our own manufacturing, laboratory and distribution facilities, Vitae Naturals ensures quality throughout the entire process.

Vitae Naturals is committed to offer our clients the highest quality products and services. An important tool to achieve this goal is the maintenance of implemented certifications (IP, HACCP, GMPc, Kosher, Halal, Organic, Ethic Code, etc.). All of them contribute to ensure 100% traceability. Furthermore Vitae Naturals is involved in a constant process of implementation of the main requested certifications in the target market.

A BRIEF HISTORY OF VITAE NATURALS

2018 Last 28 February, Vitae Naturals successfully achieved REACH registration of tocopherols ("Vitapherole" range – mixed tocopherols and d-alpha tocopherol) and Registration Number for both substances were issued. This registration enables Vitae Naturals to market its products in the context of cosmetic sector within established legal regulations.

2016 Vitae Naturals is successfully audited under FSSC 22000 standard. This new certification controls and reduces Food Safety Hazards and promotes continuous improvement in Food Safety aspects. Vitae Naturals, through this certification, bets for transparency along the Food Supply Chain. FSSC 22000 is fully recognized by the "Global Food Safety Initiative (GFSI).

2015 Installation of a state of the art micro-encapsulation facility in Talavera de la Reina. We will offer microencapsulated tocopherols and sterols produced entirely by Vitae as well as contract manufacturing services of vitamins, minerals and omega 3.

2014 Our Vitasterol® range has achieved "self-affirmed GRAS" status in USA. US FDA carried out an exhaustive inspection at our facilities last April.

2013 Vitae Naturals invests in research and innovation starting a new CDTI project related to new formulations of phytosterols for food and nutraceutical sector. Launched Vitasterol S-80 WDP.

2011 Vitae Caps is commercially renamed Vitae Naturals, to better reflect its vision and commitment to the purest natural ingredients.

2009 Plant sterols were one of the first products to gain Health Claim approval under regulation art. 14 of European Regulation 1924/2006. We are working on two CDTI (Council of Administration of the Center for Industrial Technology Development) projects until the end 2011, one of them is the study of natural tocopherols as new source of vitamin E in feed sector.

2008 Vitae Caps began developing tailor-made antioxidant systems and microencapsulated products. Launched Vitaslim® (CLA).

2006 Launched Vitasterol® S-80 esterified, with the highest purity available in the market >99% esterification, which is one of our best sellers today. Vitasterol® S-80 esterified obtained novel food ingredient approval following a simplified procedure of substantial equivalence according to European Regulation 258/97.

2003 Vitae Caps has been pioneer in the implementation of the non GMO IP Certification Program based on the strictest criteria from European Regulation 1829/2003 and 1830/2003.

2001 Vitae Caps opened their facilities as the leading producer of natural sourced Vitamin E in Europe.

Vitae Naturals employees are under constant training which is closely related to Vitae Naturals's certifications:

IP Control Certification according to Eurofins Identity Preservation Standard (Certificate-Register: 2013/ES/IP/B-0368)
